

Global Pharmaceutical Company

Global Pharmaceutical Company with 130,000 employees.

The Company's intranet was outdated and was no longer supporting both the business objectives of the organization and the shifting priorities of their ever-changing workforce.

The new digital hub needed to improve employee engagement and productivity while supporting streamlined business processes that would make their employees work-lives easier. The company required a solution that was cutting-edge, mobile-first, and highly personalized. It also needed to be easily integrated with enterprise applications and feasible to manage and sustain.

The Akumina based digital hub, delivered by Avanade focuses on 7 Employee Experience Pillars.

- Loved – Embraced by all employees.
- Intuitive – Straightforward, with no training required.
- Intelligent – Knows who the employee is and what they need.
- Quick – Saves time by empowering business users
- Seamless – Provide a centralized user interface across multiple systems and sources of data.
- Accessible – Available on any device, anytime, and anywhere.
- Helpful – Self-service and self-help resources across the globe.
